

Clinix Healthcare manages the complexities of your benefits administration. For better health and better use of healthcare.

Clinix is a full-service accredited healthcare management company recognized for detailed responsiveness, skilled clinical knowledge and trusted leadership in managed care.

We partner with insurance companies, third-party administrators and self-insured employers to manage healthcare benefits.

Our URAC accreditation for Utilization Review and Independent Review Organization: External Review distinguishes us as one of only a few U.S. companies to earn these credentials.

We are licensed as a private agent performing utilization review services in all states where required.

Partner with Clinix to gain:

- A skilled clinical team including licensed nurses and registered dietitian
- A panel of more than 60 physician reviewers
- Personal, prompt customer support
- A custom-built APEX Client Clinical Portal for **24/7** client account access

 **Customized Services**

We provide traditional healthcare management services with additional programs that promote proactive and preventive healthcare to help your members achieve optimal wellness — all tailored to your needs and budget:

- | | |
|-----------------------------|-------------------------|
| • Utilization Management | • Medical Claims Review |
| • Specialty Case Management | • Independent Review |
| • Disability Management | • Health and Wellness |
| • Disease Management | • Population Management |
